

MC&A assists in the first PPP in Guinea-Bissau.

Marques da Cruz & Associados (**MC&A**) has been assisting the Turkish company FB GROUP (www.fbgroun.com.tr) in the first ever PPP (PUBLIC-PRIVATE PARTNERSHIP) in Guinea-Bissau.

The PPP consists in the BOT (Build, Operate and Transfer Agreement) under which FB GROUP will rebuild, expand, modernize and operate the international airport of Bissau (Osvaldo Vieira Airport).

FB GROUP has a strong presence in Africa, particularly in the operation of airports.

The project (which involves the creation of new legislation) is considered as the most important project to this date related with the infrastructures of the country and will be a milestone in the development and improvement of the infrastructures of Guinea-Bissau.
